

What is cloud computing?

=> cloud computing is a method of utilizing on-demand computer services via the internet. There is no need to maintain physical servers, instead, service provider, such as ~~We~~ AWS (Amazon web service) and Google cloud platform, provide user with necessary storage, databases, networking and software.

There are three types of cloud computing service

- IaaS (Infrastructure as a Service)
- PaaS (Platform as a Service)
- SaaS (Software as a Service)
